

BUILDINGS AND GROUNDS MANAGEMENT

All school properties will be maintained in good physical condition: safe, clean, sanitary, and as comfortable and convenient as the facilities will permit or the use requires.

The superintendent will develop and implement a continuing program of maintenance of all Board-owned buildings and grounds which will provide for the following:

1. Adequate custodial programs for all school;
2. Improvement and maintenance of school buildings and grounds; and
3. Repairs, including repairs of equipment and painting.

The following are responsibilities of building principals:

1. To oversee the operation of the school plant and require that personnel assigned to the building keep it in a clean, healthful, and pleasant condition;
2. To make continuing checks for hazardous conditions, including safety and operation of equipment, and prevention of hazardous situations caused by carelessness; and
3. To request, on a timely basis, appropriate maintenance and repairs through appropriate channels.
